## **Medicaid Reform Implementation Status**

Note: Idaho Medicaid is proceeding with all planned reform initiatives except where the use of the Deficit Reduction Act of 2005 (DRA) as the vehicle for federal authority, rather than a Section 1115 waiver, has caused delays or challenges. See Notes column for more information.

| Co-payments for certain Medicaid services                                                                          | H663                                         | Pending. Co-pays on non-emergent use of hospital emergency rooms requires additional design work and collaboration with partners due to specificity in the DRA. Co-pays for missed appointments are according to physician policy. Co-pays for non-emergent use of emergency medical transportation will be implemented and rules will be promulgated. Co-pays on non-preferred prescription drugs are unnecessary due to effectiveness of preferred drug list. |                                         |
